

Langs de singelgracht is in de loop van de 19e en 20ste eeuw een 'ketting' ontstaan van grote atypische kralen. Van zembad tot parkeergarage en politie bureau gaat het om hele verschillende bouwblokken en bouwstijlen.

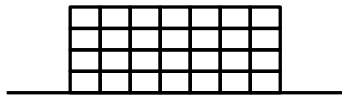

Stadsboulevard Marnixstraat: continuïteit 19e eeuwse stadspanden

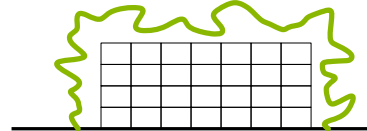

Amsterdams bouwblok:
binnenkant verspringende
gevels en groen

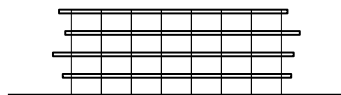

binnenkant wordt
buitenkant

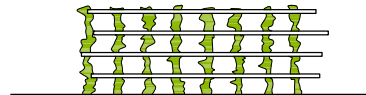

structuur is rationeel,
duurzaam casco

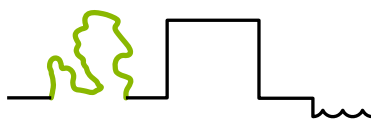

kraag met groene gevels,
dak, balkon en erkers

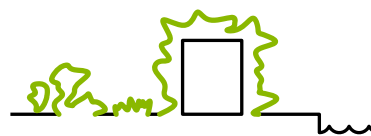

uitstekende vloeren
voor buitenruimtes en
zonwering

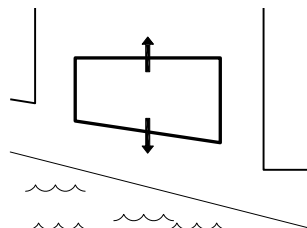

gevelbeplanting staat in de
grond en groeit door gaten
in uitstekende vloeren

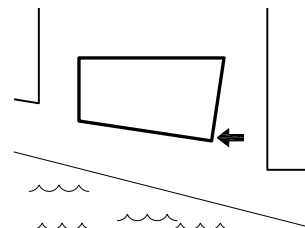

SPVE groen plein met
gebouw

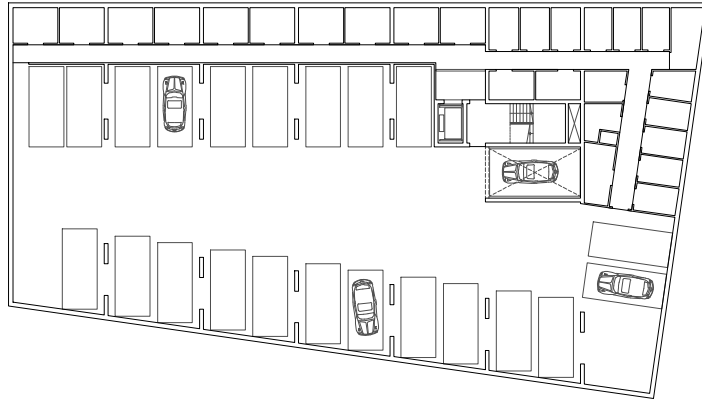

groen plein groeit over
gebouw heen

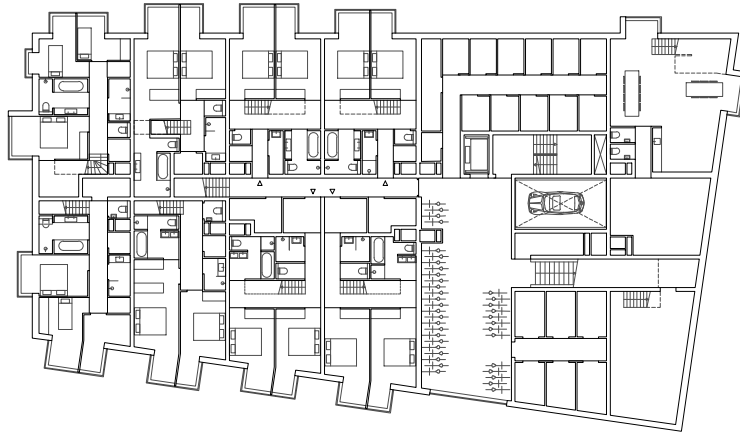

blok gericht op plein en
water

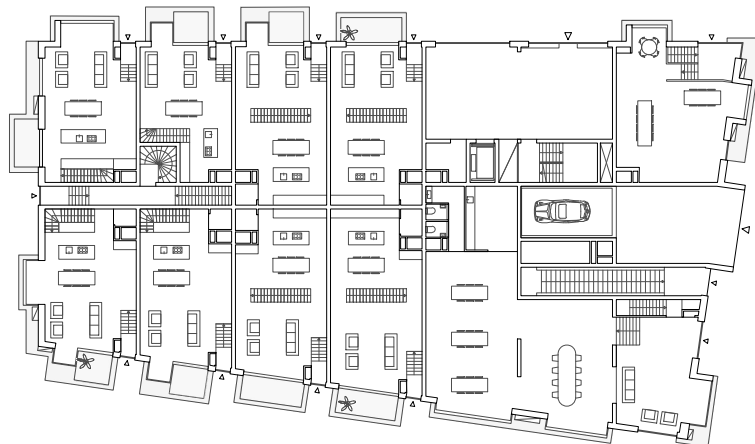

hoek ingedrukt:
verblijfskwaliteit op hoek
in zon aantekkelijk maken
voor kade
